About Us

We supply a wide range of products for the professional nursery, horticulture and fruit grower industries with a focus on quality and forming long-term business relations. Our comprehensive range of bamboo canes, flower sticks, bamboo trellis, wire baskets, fiberglass, tree belt, Jute band and planting bags means we can supply all your needs.

Furthermore, we are the biggest supplier of wire tree root ball baskets in China, making us a worldwide market leader in this product category. We export our products to many countries including The Netherlands, Belgium, Germany, Turkey, The US, United Kingdom, Australia etc. We work every day to ensure our products are of the highest quality and that our clients are 100% satisfied. If you are looking to increase your sales and find a trusted partner for growth, reach out to us!

We Are the Manufacturer - As a leading manufacturer of bamboo stakes and supplier of a wide product range for the professional nursery, horticulture and fruitgrower industry, and through our current trading volume, you can be confident in our ability to deliver on the promise of high quality and manufacturer priced products.

Our Commitment to Quality - Our current supply volume is testament to our commitment to quality and professional management. We understand the pains of your business and the disruption a 'bad' container can cause, and that is why don't allow any products that do not pass our stringent quality controls to be loaded onto containers. Our local team in China work extensively with all our staff through all steps to perfect the manufacturing process, avoid quality issues in before they even occur.

We Treat our Staff Like Family - Creating a safe and friendly workplace is something we put at the forefront of our business. People over profits. All our employees in our factories and bamboo fields are paid fair wages, guaranteed a safe workplace and given adequate breaks and day offs (something the industry is notorious for abusing). Bamboo fields and processing plants are often hot and humid, hence we ensure staff are given plenty of amenities to ensure they are safe, healthy and go home at the end of the day to their families. We also believe that our commitment to our staff and the extra money we spend on them benefit our quality, as happy workers will produce the highest quality products that our end customers can benefit from.

Orchard Bamboo Canes
